WHAT CAN WE OFFER YOU

- We offer a hassle free way to increase sales and market share
- Access to global marketplaces in a controlled way. You always know where your products are going and brand integrity is maintained.
- We take all the risks and only invest in companies we believe will be profitable. If you decide to cease working with us, there are no contracts or tie ins so you have nothing to lose.
- For each country/marketplace that we enter you will have the opportunity to expand your reach and grow your sales through us with no costs to yourselves. The more we grow, the more you grow.
- We can upload your full catalogue* of products rather than just selecting best sellers, giving consumers greater access to your products and availability worldwide.
- We work closely with our suppliers to ensure sales are optimised and we give monthly updates on progress.

* Providing products don't conflict with marketplace selling restrictions

WHAT MAKES PERTEMBA DIFFERENT?

PERTEMBA

No cost - No initial setup fees or ongoing commissions

No hassle - We take your product data in any format & optimise it

No contracts - We believe we're only as good as the service we offer, so we don't tie you down with long contracts

TRADITIONAL INTEGRATORS

High costs - Including setup fees and ongoing commissions

Extra work - Data is required in a specific format

Contracts - You'll be committed for a set amount of time regardless of your success

ENJOY THE BENEFITS OF A SERVICE PROVIDER WITHOUT THE RISK

PERTEMBA

Integrations - We are integrated on multiple marketplaces around the world ready to sell your product

VAT & legal restrictions - Your responsibility ends when we receive the product in a saleable condition

Delivery & Returns - Once the products have arrived at our central location, we look after delivery and returns

Translations & Customer service - Our in-house native speakers provide professional translations for each marketplace, as well as international customer service

DOING IT YOURSELF

No integrations - Setting up on marketplaces can be a time-consuming and complex process

High risk - Establishing your business in new territories can be costly and take up valuable time

High cost - Delivery and returns can quickly become expensive when trading overseas. A lack of local returns service will dissuade many customers from buying

No local knowledge - Customers are put off by sellers who do not appear to be native. Local knowledge also helps to identify trends and maximise sales potential.
